Nazmul Hussain

Full-Stack Developer • AI Automation • Data Analyst

I build web applications, automate business workflows with AI, and turn marketing and operations data into decisions. A decade in sales and digital marketing means I ship software that solves real business problems, not just tickets.

01 Professional Summary

Full-stack developer and AI automation builder with a background in digital marketing and UI/UX design. I started in pharmaceutical sales, moved into performance marketing in Dubai, and now design and develop the web applications, automations and dashboards that growing businesses run on. Founder of Make My Business Live (MMBL), a web and digital-growth studio.

- **Web & App Development:** responsive, accessible front-ends in HTML, CSS, JavaScript and React; REST APIs and server-side apps with Node.js, Express, EJS, PHP and SQL.
- **AI Automation:** wiring LLM APIs, webhooks and no-code / low-code tools into lead-capture, reporting and content pipelines so teams stop doing repetitive work by hand.
- **Data Analysis:** campaign, sales and web analytics turned into clean datasets, SQL queries and dashboards that explain what happened and what to do next.
- **Business context:** years on the commercial side mean I understand funnels, budgets, stakeholders and deadlines, and I communicate clearly with non-technical teams.

02 Skills & Tools

</> Web & App Development

HTML5 · CSS3 · JavaScript (ES6+) · React · Node.js · Express · EJS · PHP · SQL / MySQL · REST APIs · Responsive Design · Git & GitHub · Web3 basics

⚡ AI & Automation

LLM APIs (OpenAI, Claude) · Prompt Engineering · Workflow Automation · n8n / Make / Zapier · Webhooks & API Integration · Chatbots & AI Assistants · CRM & Email Automation · Scripting (JavaScript, Python)

📊 Data & Analytics

SQL · Excel / Google Sheets (advanced) · Google Analytics 4 · Looker Studio · Power BI · Python (pandas) · Dashboards & Reporting · A/B Testing · KPI & Funnel Analysis

🎯 Digital Marketing

SEO (On-page, Off-page, Technical) · Google Ads & Bing Ads · Meta, LinkedIn & TikTok Ads · Email (Mailchimp, HubSpot, SendGrid) · Content & Copywriting · Influencer & Affiliate

✎ UI / UX Design

Figma · Adobe XD · Illustrator · Photoshop · Premiere Pro · After Effects · UX Research · Design Systems

🤝 Professional

Project & Task Management · Stakeholder Communication · Training & Mentoring · Process Improvement · Team Leadership

03 Work Experience

2024 – 2025 Dubai, UAE

Digital Marketing Manager
Essenzi Perfumes

- Owned the full digital channel for a retail perfume brand: paid search and social, SEO, email and the e-commerce storefront.
- Built reporting dashboards combining ad-platform, analytics and sales data to track spend, ROAS and funnel drop-off week over week.
- Automated repetitive marketing operations (lead routing, campaign reports, content scheduling) with scripts and workflow tools, freeing the team for creative work.

2023 – 2024 Dubai, UAE

Digital Marketing Trainer
Spoton Training Institute

- Designed and delivered a hands-on digital marketing curriculum covering SEO, Google Ads, social media advertising, analytics and landing-page development.
- Coached working professionals and career-changers through live campaign projects and data-driven optimisation exercises.
- Produced course material, slide decks and practice datasets; introduced Google Analytics and Looker Studio reporting modules.

2022 – 2023 Dubai, UAE

Digital Marketing Executive
Etisalat Telecom (HACB)

- Ran digital acquisition campaigns for telecom products under a major UAE brand, working within strict brand, compliance and budget guidelines.
- Analysed campaign and lead-quality data to shift budget toward the best-performing audiences and creatives.
- Coordinated with sales teams to close the loop between online leads and conversions.

2021 – 2022 Dubai, UAE

Digital Marketing Executive
WGCB

- Managed SEO, social media and paid campaigns; built and maintained landing pages and website content.
- Set up tracking (tags, events, conversions) so every campaign could be measured end to end.

2017 – 2019 India

Senior Marketing Executive
Indiabulls Pharma

- Led territory sales and marketing for a pharmaceutical portfolio; managed relationships with doctors, distributors and retail partners.
- Tracked sales performance against targets and used the numbers to plan territory coverage and promotional activity.

2014 – 2017 India

Junior Marketing Executive
Shreya Lifescience · Raptakos, Brett & Co. Ltd · Ajanta Pharma

- Progressed through three pharmaceutical companies in field marketing and sales, building the communication, negotiation and reporting habits I still use today.

04 Projects

Omebly Downloader
Free, open-source Windows download manager with a companion browser extension that lets users select and download page media at full speed. Released under GPL-3.0.

JavaScript · Browser Extension · Desktop App · Open Source

Make My Business Live (MMBL)
Founder-led web and digital-growth studio. Designs and builds business websites, sets up analytics and marketing automation, and runs performance campaigns for small and mid-sized businesses in India and the UAE.

Web Development · Automation · SEO / Ads · Analytics

Wand Enhancer (contribution)

Fork of an open-source extension that adds UX and interoperability features to a desktop application. Used to study and contribute to a C# codebase.

C# · Open Source · UX

This Resume Site

Hand-built, dependency-free resume: semantic HTML, responsive CSS with dark / light themes, print-to-PDF styling and schema.org structured data. Hosted on GitHub Pages.

HTML · CSS · JavaScript · GitHub Pages

05 Education & Learning

Bachelor of Computer Applications (BCA)

Graduated 2014

Foundation in programming, databases, data structures and software engineering.

Continuous Learning

Ongoing

Full-stack JavaScript (React, Node.js, Express, SQL), AI automation and LLM tooling, and data analytics practice through hands-on projects and open-source work.
